CAREER OBJECTIVE

Passionate and detail-oriented Information Technology student with strong foundations in Python. Seeking opportunities to contribute technical expertise in software development and innovative problem-solving while continuously learning emerging technologies.

EDUCATION

- **B.Tech - Information Technology** 2022 – 2026
Bhoj Reddy Engineering College for Women, Hyderabad
CGPA: 8.0
- **Intermediate** 2020 – 2022
Sri Chaitanya Junior College
Percentage: 94.4%
- **SSC** 2020
Sri Chaitanya Techno School
CGPA: 10.0

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, C, SQL
- **Web Technologies:** HTML5, CSS3, JavaScript, Angular, React.js, Node.js, Express.js
- **Databases:** MySQL, MongoDB
- **Machine Learning:** CNN, PyTorch, Flask, Image Processing, Generative AI
- **Core Subjects:** Data Structures, Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks
- **Tools:** Git, GitHub, VS Code, Postman, Google Colab

INTERNSHIP EXPERIENCE

Vault Of Codes

Web Development Intern

- Developed Python-based applications and automated tasks using Python libraries.
- Worked on frontend technologies including HTML, CSS and JavaScript.
- Participated in debugging, testing and deployment activities.
- Gained practical exposure to software development lifecycle and collaborative development.

PROJECTS

SkillSwap – Peer-to-Peer Skill Exchange Platform

Tech Stack: MongoDB, Express.js, React.js, Node.js, JWT, Google OAuth

- Developed a MERN-stack web application enabling users to exchange skills through real-time collaboration.
- Implemented secure authentication using JWT and Google OAuth.

- Built skill-based matchmaking, feedback system and responsive user interface.
- Enabled real-time communication through chat and video interaction features.

Agro Care – Plant Disease Detection System

Tech Stack: Python, Flask, PyTorch, CNN, Image Processing

- Developed an AI-powered system to detect plant diseases from leaf images.
- Trained CNN models using PyTorch for disease classification.
- Integrated treatment recommendation functionality based on disease prediction.
- Designed a Flask web application for real-time disease detection.

Hospital Management System

Tech Stack: Java, MySQL

- Developed a healthcare management system for patient registration and record management.
- Implemented secure authentication and unique patient identification.
- Improved organization and retrieval of healthcare information.

CERTIFICATIONS

- Data Science Using Python – Brainovision
- Fundamentals of Generative AI
- Generative AI Certification
- Python and Artificial Intelligence Bootcamp – DevTown

WORKSHOPS

- Participated in a 7-Day Data Science Using Python Workshop conducted by Brainovision.
- Participated in Python and Artificial Intelligence Bootcamp conducted by DevTown.

ACHIEVEMENTS

- Maintained CGPA of 8.0 in B.Tech Information Technology.
- Successfully completed Web Development Internship at Vault Of Codes.
- Developed Full Stack and AI-based projects addressing real-world problems.
- Earned certifications in Data Science, Artificial Intelligence and Generative AI.

STRENGTHS

- Self-Motivated and Quick Learner
- Strong Work Ethic
- Problem Solving Ability
- Effective Communication Skills
- Team Collaboration and Leadership
